Pedestrian Entrance Control
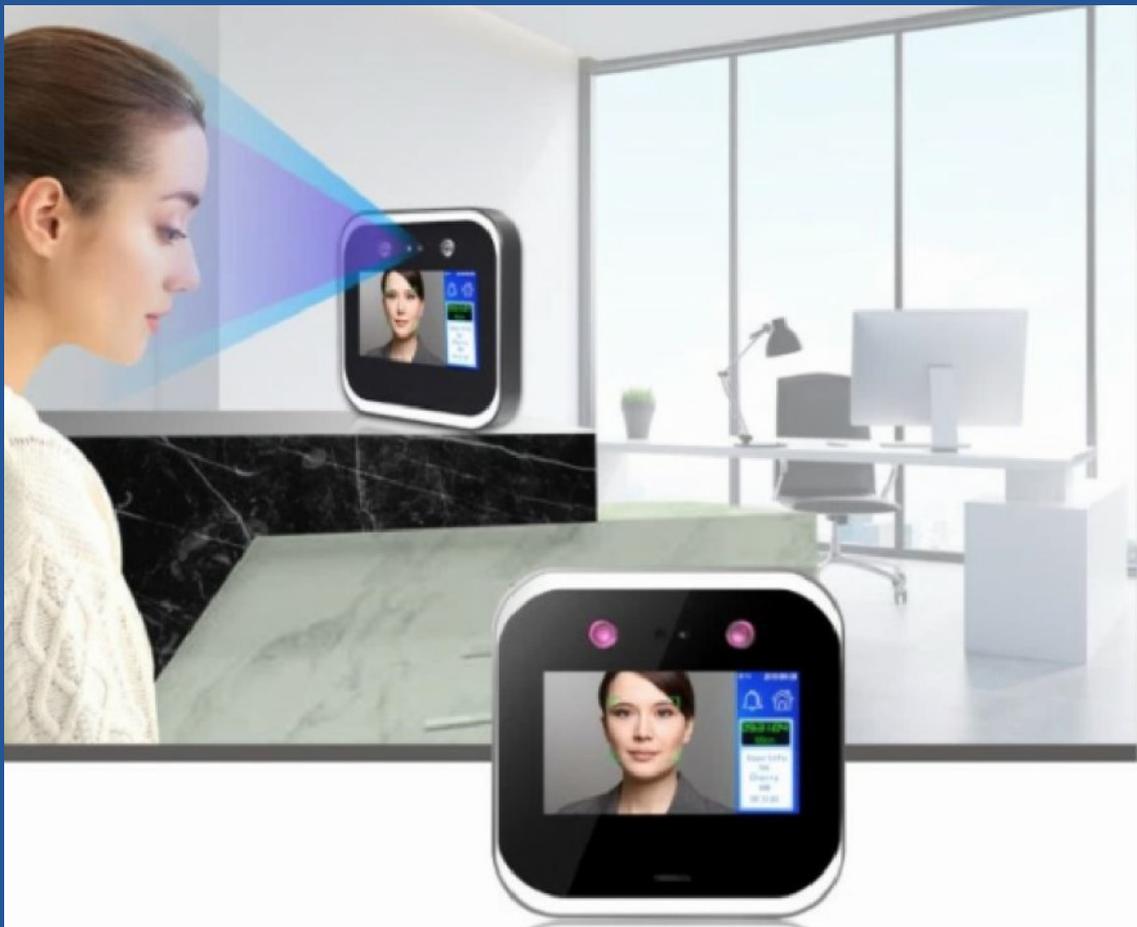

Face Recognition - EvolveFace 5

Face Recognition - Evolving the way you manage your pedestrian entrance control.

EvolveFace 5

EvolveFace 5 is an employee face recognition terminal with time and attendance that can also be used for access control to a secure area.

The terminal is ideal for construction, manufacturing, small or large companies, food processing, education hospitals and surgeries.

Face recognition for time and attendance control offers a secure, TouchLess and cost-effective way of controlling who has access to your building and when their access is allowed.
