

## PG300 - Safety notes.

Resellers, integrators, installers, service providers, specifies and owner/occupiers of premises, MUST adhere to these safety notes.

<p>If regular use by children (users shorter than 1m) is anticipated, ESP recommends: -</p> <ul style="list-style-type: none"><li>○ That children are kept under the supervision of an adult whilst near the gates;</li><li>○ That when using the gates children MUST be accompanied by an adult.</li><li>○ That the child MUST proceed ahead of the adult and that valid open commands are given for both the child and the adult.</li><li>○ That all optional safety devices are installed to achieve the highest level of safety.</li><li>○ That the gates parameters are set to full safe mode</li><li>○ That the gates are set as controlled entry and exit.</li><li>○ That appropriate safety signage and notices are affixed/placed near the gates.</li><li>○ That where possible audio voice announcements are made to warn users of the dangers of playing near the gates and incorrect use.</li></ul>
<p>Anyone using the gates MUST be trained in their correct use. Failure to provide such training may result in serious accidents or injuries.</p>
<p>Animals MUST be kept on their leads and under control by their owners.</p>
<p>Access-controlled gate systems should be installed, maintained and inspected by a competent person in accordance with BS EN 16005:2012, 4.2, BS7036 and manufacturer's specifications.</p>
<p>The gates are supplied configured in "minimum risk" mode for users. Any modification of parameters must be done knowingly by manufacturer trained personnel.</p>
<p>The gates are designed for indoor use only and must be protected from the outside elements.</p>
<p>The installer MUST comply with local regulations when installing an access-controlled gate system.</p>
<p>More detailed safety requirements are given in BS EN 16005:2012, 4.2, BS7036 and our manual of good practice (MOGP).</p>
<p>The gates MUST not be used for any other purpose other than which they have been designed.</p>
<p>Access to the mechanism must be reserved for manufacturer trained personnel that are fully aware of the electrical and mechanical risks involved whilst working on the equipment.</p>
<p>Any operation that does not require the equipment to be powered, isolate at the distribution panel or local isolation switch.</p>
<p>Internal item likely to be energised or move MUST be handled with care.</p>
<p>The gates MUST be fastened to the floor before putting into use.</p>
<p>For safety reasons it should NOT be assumed the gates are working safely. The owner/occupier MUST carry out weekly checks on all safety devices.</p>
<p>There should be no notice boards. Literature racks, merchandise displays or other distractions or obstructions in the vicinity of the gates which may congest or inhibit traffic flow.</p>
<p>ESP cannot be held responsible for any damage or injury resulting from the improper use of the gates.</p>
<p>Do not install this equipment in an explosive area.</p>

To avoid the risk of voiding the warranty use antistatic gloves or bracelets when handling electronic components.

Do not add unapproved accessories.

**Prohibit notices.**

Resellers, integrators, installers, service providers, specifies and owner/occupiers of premises, MUST adhere to these prohibit notes.

Do not tailgate.

Do not travel in the wrong direction.

Do not rush the gates.

Do not loiter in the gates.

Do not play in the gates.

Do not allow children to use the gates unaccompanied.

**Legal notes.**

Resellers, integrators, installers, service providers, specifies and owner/occupiers of premises, MUST adhere to these legal notes.

In the event of resale of the equipment, it is the responsibility of the seller to ensure

- That a copy of the safety notices are provided to the purchaser.
- That a copy of the handover manual is provided to the purchaser.
- That the equipment's foreseeable environment, user and technical characteristics of the site are meet by the equipment.

The re-seller shall defend and indemnify ESP from any claims which may be raised against ESP due to the seller's failure to comply with the legal and safety notices.
