

Pedestrian Entrance Control

Face Recognition - Thermal 360

Face Recognition - Evolving the way you manage your pedestrian entrance control.

Thermal 360

The Thermal 360 Imaging camera is a highly accurate portal handheld temperature measuring instrument which can help in the fight against COVID-19.

It has an Hi/Lo temperature alarm, central point temperature measurement, high low temperature auto tracking and real-time temperature display.

The camera can be connected to a Pc for image analysing and supports SD card and USB import: with powerful image processing capability.
